Relevant knowledge, skills and experience

Dr Rüdiger was an executive (CEO, COO) of international stock listed companies (NASDAQ, successful IPO on Euronext) in the biotech/pharma sector. As a CEO of Kiadis Pharma he advanced the company's programs towards late-stage clinical development and pre-commercialization stages including submission-readiness for marketing authorization. He has secured many corporate financings and capital raises and built start-up companies. He has a strong scientific background and received his PhD in Biochemistry from the University of Tübingen for his work at the Max Planck Institute for Biophysical Chemistry, Göttingen, Germany.
